The Flats Improvement. The Washington correspondent of the Baltimore Sun savs:

"The work upon the harbor improve ments above the Long bridge begins now to show its shape and character not only upon the island flats in the middle of the river.

but also upon the inshore edges of the chaniel. On the Washington side of the river the huge frameworks of the pend cutlet gates are under construction. On the Virginia side large portions of the earth dredged rom the river are being used to extend the Virginia shore into the river. A canal way has been dredged from the deep water of the Virginia channel into the rear of Jack-son City, and the large deposits made there will considerably increase the area of the city which Gab Jackson called into the world before its time, and which was born The work which is now being done, ithough on the edge of the channel on the Virginia side, is below low-water mark, and is a part of the District of Columbia, under decision of the courts in the tax case of the District of Columbia vs. the Alexandria Canal and Bridge Company. Some lawyers say that under this decision the District com-missioners not only have jurisdiction over the flats up to the low-water mark on the Virginia side, but have also land rights on be flats in front of the whole Virginia shor pposite the District, and that while under ie old Maryland and Virginia compact of 1784 the owners of land on the Virginia side have a right to extend wharves, &c., lote the river, yet wherever a swash channe apable of payigation passes in front of the Virginia shore, all the Virginia rights are counded by that channel. This mutter which has been more or less in abeyance since the retrocession of the southern part of the District to Virginia because there was no need of settlement, will soon be brought to the front by the commercial use of the Virginia shore. That will be the first con sequence of the improvement of the flatsop posite the city. The Jackson City property from the Long bridge was is already con-trolled by the Pennsylvania Railroad Com-

pany. The Richmond and Danville synd

eate in its connection with the Virginia Mid

torial rights of the District of Columbia will arise to be settled by the courts. AN OLD SOLDIER'S FORTUNE,-Private Spiscopal High School of Virginia | Wm. J. Shepherd, of the Twenty-math Pennsylvania Volunteers, now living in Wm. J. Shepherd, of the Twenty-ninth Philadelphia, has received notice from Washington that be is entitled to a pension and back pay for a wound received twentythree years age. Shepherd has been working to secure a pension for twenty years or more. He was wounded on the anciversary of Washington's birthday, 1864, by the accidental discharge of a comrade's musket during a parade of the Twenty-ninth regiment. The bullet struck him in the right ankle, inflicting a serious wound. After his recovery Shepherd rejoined his command at the front and served in several engage-ments. At the close of the war be applied for a pension, but received no encourage-ment. From time to time, however, he persistently renewed his application, until it was at last favorably considered. The argument made by Shepherd was that he was still in the service when he was wound-ed. The back pay and arrearages due him will amount to \$10,000 or more. Shepherd is forty-live years of age. The capital stock of this company is \$625,000, divided into 625,000 Door and Window Frames, Moldings, are shares of \$1 each.

The company is incorporated under the laws of West Virginia, and the stock is non-assessable, and carries with it no personal liability to the holder.

THE GOLD MINING COMPANY (location, Music Mountains, A. T.) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise.

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for.

A Wisewell mill, capacity 20 tons per day, with powerful machinery, has been purchased and will be on the ground ready for erection at the mine within the next thirty days.

The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence of the public, and the stock has steadily advanced in selling value. Within the last few days bona fide sales have been made AT PAR.

There is no better stock on the market for a permanent investment. For full information in regard to this Mine apply to the
